RESERVE BOARD COMPLETE

Senate Confirms Paul M. Warburg
and Frederick A. Delano.

Washington, Aug. 8.—Nominations of Paul M. Warburg of New York and Frederick A. Delano of Chicago as members of the federal reserve board were confirmed by the senate.

With the confirmation of Mr. Warburg and Mr. Delano the new banking board is complete and can proceed at once to the organization of the reserve system under the new currency law. Other members of the board are: W. P. G. Harding of Birmingham, Ala.; Adolph C. Miller of San Francisco; Charles S. Hamlin of Boston and Secretary of the Treasury McAdoo and Comptroller of the Currency Williams as ex officio members.

Rome, via London, Aug. 8.—The German government is using its utmost efforts to bring about a change in Italy's attitude in the present European situation. Direct appeals have even been made to King Victor Emmanuel, but all in vain. It is asserted that Italy, having declared her neutrality, intends to maintain it.

Italy's position as a member of the triple alliance and therefore an ally of Germany, under certain conditions, has been discussed in every phase and the general consensus of opinion seems to be that the Italian people never would permit an act of hostility against France and Great Britain.

Because Italy is neutral all manifestations for or against the belligerents are being repressed rigorously. Yet everywhere spontaneous outbursts of enthusiasm for France have occurred. In Rome there have been frequent cries of "Long live France! Long live our Latin brothers!" and the "Marseillaise" is being sung in the streets.

The French embassy here and the French consulate in other cities of Italy daily are receiving offers from men who wish to join the French forces.

GERMAN COMMERCE SUFFERS

Many Merchant Vessels Become
Prizes of War.

London, Aug. 8.—The capture of German merchant craft continues at a rate gratifying to Englishmen, who predict that the war speedily will result in driving German commerce off the sea.

The German steamer *Hauta*, timber laden, was towed into Leith. This is the fourth German prize brought into that port. Lloyd's agent at Bordeaux reports that the German steamers *Consul Horn* and *Arcturus* have been seized by the French government.

A number of German merchant ships which were lying in English harbors when war was declared, have been seized. According to an English authority on international law such vessels can be retained only while the war lasts. When peace is signed they must be returned to their owners.

BELGIANS SUFFER SEVERELY

Germans Surprised at Stubborn Re-
sistance Made.

Brussels, via London, Aug. 8.—Details of the latest fighting at Liege still are lacking, but the newspapers report brilliant feats by the Belgian defense up to Thursday night. According to the press the German invaders, expecting a weak defense, were greatly surprised at the splendid fight made by the Belgians, who themselves suffered severely in resisting the German assault.

Barbed wire and mines, together with artillery, strengthened the field between the Belgian forts. The Germans were cut down wholesale when they attempted to pass between the forts.

May Halt Gold Ship.

Washington, Aug. 8.—Naval officers here pointed out that the United States' gold ship *Tennessee* may not be permitted to land, because of a possible objection from Germany to an American warship in the war zone.

Declares War on Austria.

Rome, Aug. 8.—Montenegro has declared war against Austria and her army already is joining the Servians.

Scotland's Old Capital.
For a number of generations Perth,
and not Edinburgh, was the capital of
Scotland.

Special to Dispatch:

New York, August 8, (3 P. M.)—Private cable advices received here today report that a flotilla of German torpedo boats attacked the British warships in the Humber waterway to Hull on the east coast of England, sinking four.

Hull is a seaport in the East Riding of Yorkshire, England, situated at the entrance of the Hull into the Humber. After London and Liverpool, Hull is the principal port in England. It is about 150 miles north of London.

LIEGE FORTS STILL HOLD OUT

Special to Dispatch:

Paris, August 8, (11:50 A. M.)—It is officially announced that the forts at Liege continue holding out. The Germans who entered the city evacuated Friday before the arrival of the Belgian division which had come to the rescue.

ITALY SEIZES 2 GERMAN SHIPS

Special to The Dispatch:

London, August 8, (5 A. M.)—A dispatch from Milan to the Chronicle says that the Italian authorities at Genoa have seized two German transatlantic vessels, the *Moltke* and the *Koenig Albert*.

It is explained that the action was taken when the captains demanded a supply of coal though they had a supply aboard.

The *Koenig Albert* belongs to the North German-Lloyd line and sailed from New York July 4 and arrived at Genoa July 17. The *Moltke* is a Hamburg-American liner. She left New York July 15, arriving July 28.

FRONT CAVALRY SUPPORTS BELGIANS

Special to The Dispatch:

Brussels, August 8, (11:45 A. M.)—A force of French cavalry arrived east of Liege today. According to the official announcement here the French troopers are said to be advancing.

FRENCH ENTER ALSACE TODAY BURN RUSS VILLAGES

Special to Dispatch:

Paris, August 8, (3 P. M.)—The French troops today entered Alsace and captured the village of Altkirch, near the Swiss frontier, seventeen miles west of Basel.

ENGLISH TROOPS ON FRENCH SOIL

Special to The Dispatch:

Paris, August 8 (11:45 A. M.)—It is officially announced that English troops under the direction of French officers are disembarking on French soil. The point of disembarkation has not been revealed.

PROCLAMATION TO FORCES

King Albert of Belgium Gives Words
of Encouragement.

Brussels, Aug. 8.—Before departing for the front King Albert addressed a proclamation to the Belgian army, saying:

"Without the least provocation on our part our neighbor, proud of its forces, has torn up treaties bearing its signature and broken in upon the territory of our fathers because we refuse to forfeit our honor."

"An attack has been made upon us and the world marvels at our loyal attitude."

"Be comforted by our independence."

"Our menaced nation shudders and its children have bounded to the frontier."

"Brave soldiers, I salute you in the name of Belgium. You will triumph because your strength has been put to the service of the right."

"Glory to you, soldiers and defenders of the liberty of our menaced fatherland."

Russian Cavalry Repulsed.

Berlin, Aug. 8 (via London).—A Russian cavalry brigade attacked the German troops near Soldau, in East Prussia. The attack was repulsed with considerable losses. Russian cavalry on Thursday attacked the town of Kibarty, near Wirballen, in the government of Suwalki, Russian Poland.

French Defeat Bavarians.

London, Aug. 8.—A Brussels dispatch to the Exchange Telegraph company gives an unofficial report that a Bavarian corps has been defeated by the French at Marnehan, north of Luxembourg. Many prisoners are said to have been taken.

FUNERAL WILL BE HELD MONDAY

Services for Mrs. Wilson Take
Place at White House.

BURIAL AT GIRLHOOD HOME

Interment Will be at Rome, Ga.,
Tuesday Afternoon.

ADMIRAL CALLAGHAN.

Commander of British
Fleet in North Sea.

BELGIANS AGREE TO ARMISTICE

Give Germans Time
to Bury Dead.

LOSSES ALLEGED TO
BE FULLY 25,000

German Official Version Calls
Operations Only a Unique
Act of Heroism.

London, Aug. 8.—A dispatch to the Post from Brussels says that the Belgians have granted the armistice for twenty-four hours requested by the Germans and that the latter are collecting their wounded and burying their dead. The Germans have withdrawn to a less exposed position, where they can recuperate.

Dispatches from Brussels say the Belgian minister of war announced the German request for an armistice and at the ministry it was said the Germans admitted their casualties number 25,000. Belgian officials assumed the request for an armistice was to permit the Germans to pick up their dead and wounded.

Wounded Belgians, eyewitnesses of the fighting, who were brought here say they saw Germans mowed down by hundreds in front of the trenches and entanglements by the gun and rifle fire of the Belgians, but that they were replaced by others, who crawled forward like weasels. In certain places in the fighting zone the ground was covered with dead, the burial of whom will take at least a week.

Trains filled with wounded and fugitive noncombatants arrived at Brussels from Liege and neighboring towns.

The military trains with prisoners on board were sent from Liege to Ambwerp.

Troops in Best of Spirits.

The Belgian troops appeared to be in the best of spirits when the train left Liege. They declared that if there had not been ten Germans to one Belgian not one German would have got through their lines. Though in good spirits the Belgians were partly exhausted, having fought for fifty hours without rest.

Le Peuple says the bombardment of Liege had caused six or seven fires in the city.

Martial law has been proclaimed throughout Belgium.

Five persons dressed as preachers were arrested at the Brussels station and accused of being spies. An indignant crowd hooted and menaced them.

Many of the people of Liege have made their way out of the city, fearing an epidemic more than the bombardment.

German prisoners, whom a correspondent questioned, acknowledged freely the courage and tenacity of the Belgian troops who are opposing the German advance. The prisoners were treated with consideration and on the way to Brussels were supplied at the stations with beer and bread.

The excitement in Brussels, since the arrival of the wounded, has increased, is such is possible. There is much optimism, however. The events before Liege are considered as merely the raising of the curtain and it is believed that Belgium once more may be the country where the destinies of Europe will be decided.

UNIQUE ACT OF HEROISM

Official Account of German Operations
at Liege.

Berlin, via London, Aug. 8.—The official German account of the siege of Liege says:

"On Wednesday the German advance guards penetrated along the entire Belgian frontier. A small detachment tried a coup de main with great boldness at Liege.

"Some of the cavalry entered Liege with the intention of seizing the commander of the forces, who only saved himself by flight.

"An attempt on the fortress itself, the fortifications of which are modern, was unsuccessful. Our troops are before the fortress, in contact with the enemy.

"A hostile foreign press will characterize the enterprise, which cannot in the slightest influence the large operations, as a defeat. It, however, is only a unique act of heroism, in the history of war and a sign of the heroic gallantry of our troops."

BELGIANS HAVE ADVANTAGE

Fighting Around Liege of a Most Serious Nature.

Paris, Aug. 8.—An official communication issued by the French war office says the resistance offered to the Germans by the forts of Liege continues, according to the latest advices. The fighting is of the most serious nature. Up to the present the advantage has lain with the Belgians, 40,000 of whom are holding in check several German army corps. Several thousand Germans have been killed or wounded or taken prisoners.

The official of the war office explains the operations around Liege. He said there are twelve forts, six on each bank of the River Meuse. Their distance from the center of the city varies from three and one-half to one-half miles.

The Bank of England, he said, had received on foreign accounts \$28,000,000 in gold; there was no sign of gold being hoarded and trade was regaining its normal condition.

FINANCES IN GOOD SHAPE

Banks Reopen All Over the United Kingdom.

London, Aug. 8.—Before the adjournment of the house of commons David Lloyd-George, chancellor of the exchequer, announced that reports received from points throughout the country showed that with the opening of the banks the financial position was perfectly satisfactory.

The Bank of England, he said, had received on foreign accounts \$28,000,000 in gold; there was no sign of gold being hoarded and trade was regaining its normal condition.

RESERVE BOARD COMPLETE

Senate Confirms Paul M. Warburg and Frederick A. Delano.

Rome, via London, Aug. 8.—Germany and Austria have renewed the strongest pressure on the Italian government and King Victor Emmanuel to gain Italy's help in the war, even to the extent of promising territorial compensation.

Rome, via Paris, Aug. 8.—The German government is using its utmost efforts to bring about a change in Italy's attitude in the present European situation. Direct appeals have even been made to King Victor Emmanuel, but all in vain. It is asserted that Italy, having declared her neutrality, intends to maintain it.

Italy's position as a member of the triple alliance and therefore an ally of Germany, under certain conditions, has been discussed in every phase and the general consensus of opinion seems to be that the Italian people never would permit an act of hostility against France and Great Britain.

Russian Cavalry Repulsed.

Berlin, Aug. 8 (via London).—A Russian cavalry brigade attacked the German troops near Soldau, in East Prussia. The attack was repulsed with considerable losses. Russian cavalry on Thursday attacked the town of Kibart, near Wirballen, in the government of Suwalki, Russian Poland.

French Defeat Bavarians.

London, Aug. 8.—A Brussels dispatch to the Exchange Telegraph company gives an unofficial report that a Bavarian corps has been defeated by the French at Marrenhe, north of Luxembourg. Many prisoners are said to have been taken.

FUNERAL WILL BE HELD MONDAY

Services for Mrs. Wilson Take Place at White House.

BURIAL AT GIRLHOOD HOME

Interment Will Be at Rome, Ga., Tuesday Afternoon.

Washington, Aug. 8.—Girlhood friends of Mrs. Woodrow Wilson telegraphed messages of sympathy to the president and expressed the hope that she might be "brought back home." Accordingly, Myrtle Hill cemetery at Rome, Ga., will be the final resting place of the wife of the president.

Funeral services will be held at 2 p. m. Monday at the White House in the historic East room, where but a few months ago Mrs. Wilson witnessed the marriage of her daughter, Jessie, to Francis B. Sayre. The interment will be Tuesday afternoon at Rome, Ga., where Mrs. Wilson spent many of her girlhood days and where her mother and father are buried.

The services at the White House will be private, but will be attended by members of the cabinet, a few relatives and intimate friends and by committees from the senate and house. Rev. Sylvester Beach of Princeton, N. J., who married Mrs. Sayre and Mrs. W. G. McAdoo in the White House, probably will officiate and it is possible that Rev. James H. Taylor, pastor of the Central Presbyterian church of Washington, will assist.

No formal selection was made of the honorary pallbearers for the funeral, but it was practically decided that they will include the members of the cabinet. The cabinet as a body probably will not go to Rome, but most of the individual members are expected to go with the president as friends. The trip south will be made on a special train leaving Washington at 4:30 p. m. Monday, due to arrive at Rome at about 2 p. m., Tuesday. The final rites will be held soon afterwards and then the party will return to Washington.

Brother En Route From Oregon.

All the preparations for the funeral were made and formally announced, but they are subject to change in case

Professor Stockton Axson, Mrs. Wilson's brother, who has been in Oregon, does not arrive in time Monday.

He is now en route to Washington.

Mrs. Wilson's body was left in the southwest room in which she died. The president visited that room several times. Only members of the family and the most intimate friends were admitted to the room.

Flowers and messages of sympathy from all parts of the country arrived. Telegrams and letters came by the thousands. They were sent by persons in all walks of life, from rulers of foreign nations to humble admirers of Mrs. Wilson in the city and country districts of the nation.

The president of France, the president of Cuba, the Duke of Connaught, governor general of Canada, the king of England, Sir Edward Grey, foreign minister of Great Britain, Cardinals Gibbons and O'Connell and former Presidents Taft and Roosevelt were among the many prominent men who sent their condolences to the president.

Messages were also received from the governors of all states, from nearly all members of the senate and house, the justices of the supreme court, American diplomats abroad, government officials and from practically all ambassadors and ministers of foreign nations stationed in the United States.

The floral tributes were many and beautiful.

Many social affairs arranged for the next few days in Washington in which officials and army and navy officers were interested have been canceled and it is expected that similar action will be taken at the various army posts and navy yards.

Armed guards have been assigned for the protection of all the railroad bridges of the country. Enlistments began for the Canadian expeditionary forces. Heavy enrollment is reported.

It is learned that when Canada acquired from Chile the two American built submarines which are in the harbor of Victoria the crews were obtained also. On each of the submarines was a full complement of officers and all have taken service with Canada.

BELGIANS HAVE ADVANTAGE

Fighting Around Liege of a Most Serious Nature.

Paris, Aug. 8.—An official communication issued by the French war office says the resistance offered to the Germans by the forts of Liege continues, according to the latest advices. The fighting is of the most serious nature.

Up to the present the advantage has lain with the Belgians, 40,000 of whom are holding in check several German army corps. Several thousand Germans have been killed or wounded or taken prisoners.

An official of the war office explained the operations around Liege. He said there are twelve forts, six on each bank of the River Meuse. Their distance from the center of the city varies from three and one-half to six and one-half miles.

DEVELOPMENTS OF WEEK ON RANGE

Annual Report of Mining Inspector
Shows Range Conditions are Encouraging

WAR BOOSTS MANGANESE IRON

Developments in Europe are of Tremendous Importance to the Cuyuna Iron Range

The annual report of Mining Inspector August Swanson, of Brainerd, gives interesting information regarding the Cuyuna iron range. Inspector Swanson, for the period ending June 30, 1914, says that "in the face of the general spirit of pessimism that has gone broadcast on all sides about us, the mining conditions in Crow Wing county have been as a whole rather encouraging and the confidence of our people of the community in our infant industry has not been shaken."

Three properties have ceased operation. They, however, contain ore in plenty and of a high grade. Three other properties have opened up and are at an advanced stage of development. Explorations throughout the county are revealing enormous quantities of high grade ore on both the north and south ranges. As to safety, the conditions at the mines are well nigh ideal. The officials are courteous and willing to cooperate in holding "Safety First" as the primary idea in mine operation. Ample fire protection and means of exits have been provided.

The older properties comfort and sanitation are well provided. There are comfortable change houses, in some cases fire proof, with hot and cold water, steam heat, individual wash basins, shower baths and sanitary steel, mouse-proof lockers.

The exploration companies operating on the Cuyuna range for the year included the Longyear Exploration company, Cole & McDonald, George H. StClair, Hale & Bradley Exploration Co., C. C. Adams Exploration Co., C. G. Fredrickson Exploration & Diamond Drilling Co., the Heimer Exploration Co., Osterberg & Johnson, the Duluth Diamond Drilling Co., the Potts Exploration Co. These companies employed about 95 men. They reported three accidents.

In the year ending June 30, 1914, there were operated 11 mines on the range in Crow Wing county. Five mines were not operating. The number inspections made by the mine inspector were 108. The average number of men employed on the surface in stripping and exploration was 535. Underground were employed 519, making a total of 1054. The ore shipped from underground amounted to 573,380 tons. Shipped from the open pits was 101,136 tons, making a total tonnage of 674,516 tons.

The stripping operations handled 2,462,666 cubic yards of material. But one fatal accident was recorded on the range. The total ore shipped December 31, 1913 was 1,193,376 tons.

In a statement made by Charles C. Jones, of Duluth, manager of the Brainerd-Cuyuna Mining company, having mineral lands within the city limits of Brainerd, the company has engaged the services of D. C. Peacock of Brainerd to sink a drop shaft upon their property. Mr. Peacock, says Mr. Jones, has just successfully sunk a shaft at the Wilcox mine of the same design as the one to be used at the Brainerd-Cuyuna mine where similar conditions as to water and quicksand exist. Mr. Peacock estimates that the drop shaft can be put into ledge within ninety days. At the last meeting of the directors held a Brainerd, John O. Martin resigned and in his place O. J. Vorous of Bayfield, Wis., was elected. Mr.

Vorous stands high in Bayfield and a good deal of the stock of the company is held in that vicinity.

At Barrows a drill has been placed on the property of the Barrows-Mississippi Iron Co. near the town on lands which adjoin Barrows to the north and west. This company owns the fee to nearly 400 acres of land. The drill is working in the northeast quarter of section 9 right north of the town of Barrows. With all these things happening around Barrows it should make things boom. There is also considerable road work being done, especially on the state road which runs through the town of Barrows.

Shipping continues from the Amour No. 2 mine and the Kennedy mine of the Rogers, Brown Ore Co. The company has one steam shovel which is kept busy on the stockpiles. At the Croft mine good progress is being made. Situated in Crosby, the mine will do much to further increase the prosperity of this mining town. The blacksmith shop, offices and ware house have been completed. Foundations are being laid for the power house and for the 120 foot concrete chimney, one resembling the stupa of the Adams mine at Ogleland. The Northern Pacific railway will use the Soo tracks to the mine and in return, it is said, will give the use of Northern Pacific tracks to the Soo to enter Ironton.

A new country in the eyes of investors and explorers is situated at the extreme north end of Crow Wing county. W. A. Rouchleau, of Minneapolis, has had three drills at work near Emily for many months. H. J. Kruse, of Crosby, has two drills exploring near Little Pine.

The Cuyuna-Mille Lacs and Cuyuna-Duluth mines are shipping steadily. The Adams mine at Ogleland is stockpiling. The Iron Mountain mine, says B. F. Forrestal of Duluth, one of its directors, is expected to start mining within two weeks when the eastern parties, who have paid a large cash advance royalty of \$50,000, are to begin operations.

A meeting of the stockholders and the annual election of officers will be held in Duluth on August 10. The Wilcox mine at Woodrow, having its shaft anchored in solid ledge, is doing further sinking. At 200 feet depth drifting will be started.

The county commissioners August meeting was largely attended by mining interests who in many cases objected strenuously to having their valuations tilted, especially in the cases of unmined, quiet properties. Reductions were ordered by the board in a number of cases.

There is now but little doubt that the almost universal war atmosphere in Europe will result in a stiffening of ore prices.

The United States witnessed a great period of prosperity following the Spanish-American war. This war was but a local disturbance compared with the upheaval in Europe.

America, under the strict neutrality proclamation of President Woodrow Wilson, will prove the granary and store house of the world. Iron, as a trade barometer, should be the first to feel the effect of a rising market.

The Vermes-Cuyuna Mining & Development Co. elected officers as follows: President Jens Molstad, vice president Swan Johnson, secretary-treasurer H. A. Swanson, directors including the officers and Lewis Erickson of Princeton, A. E. Allen, A. L. Hoffman, C. E. Parker and G. S. Swanson, all of Brainerd. They are negotiating to turn the property, having received several flattering offers. Drilling in lots 1, 2 and 3 in section 8, township 46, range 29 has disclosed an ore body which ran from 34 per cent up. Near by the June Lake iron people held on their lease for years and then sunk a test pit to check up the drilling. The test pit revealed ore of a much richer nature than the drills and the Vermes-Cuyuna

people hope the experience of that company will be duplicated in their holdings.

The Hale-Bradley Exploration Co. has a drill in section 10, township 46, range 28. The Potts Exploration Co. recently put out a drill in a new location. Some interest is being shown in what is popularly termed the "poor farm" range of Aitkin county. One drill of Spencer & Hunt operating a year in section 23, township 47, range 47. They have taken up 80 acres there. Near by the Ecogall company is drilling. Erick Hagstrom, of Virginia, interested in the Cuyuna Iron & Manganese Ore Co. and the Barrows-Mississippi Iron Co. was on the range this week.

Shipping continues from the Amour No. 2 mine and the Kennedy mine of the Rogers, Brown Ore Co. The company has one steam shovel which is kept busy on the stockpiles. At the Croft mine good progress is being made. Situated in Crosby, the mine will do much to further increase the prosperity of this mining town. At the Croft mine good progress is being made. Situated in Crosby, the mine will do much to further increase the prosperity of this mining town. The blacksmith shop, offices and ware house have been completed. Foundations are being laid for the power house and for the 120 foot concrete chimney, one resembling the stupa of the Adams mine at Ogleland. The Northern Pacific railway will use the Soo tracks to the mine and in return, it is said, will give the use of Northern Pacific tracks to the Soo to enter Ironton.

A new country in the eyes of investors and explorers is situated at the extreme north end of Crow Wing county. W. A. Rouchleau, of Minneapolis, has had three drills at work near Emily for many months. H. J. Kruse, of Crosby, has two drills exploring near Little Pine.

The Cuyuna-Mille Lacs and Cuyuna-Duluth mines are shipping steadily.

The Adams mine at Ogleland is stockpiling. The Iron Mountain mine, says B. F. Forrestal of Duluth, one of its directors, is expected to start mining within two weeks when the eastern parties, who have paid a large cash advance royalty of \$50,000, are to begin operations.

A meeting of the stockholders and the annual election of officers will be held in Duluth on August 10.

The Wilcox mine at Woodrow, having its shaft anchored in solid ledge, is doing further sinking. At 200 feet depth drifting will be started.

The county commissioners August meeting was largely attended by mining interests who in many cases objected strenuously to having their valuations tilted, especially in the cases of unmined, quiet properties. Reductions were ordered by the board in a number of cases.

There is now but little doubt that the almost universal war atmosphere in Europe will result in a stiffening of ore prices.

The United States witnessed a great period of prosperity following the Spanish-American war. This war was but a local disturbance compared with the upheaval in Europe.

America, under the strict neutrality proclamation of President Woodrow Wilson, will prove the granary and store house of the world. Iron, as a trade barometer, should be the first to feel the effect of a rising market.

The Vermes-Cuyuna Mining & Development Co. elected officers as follows: President Jens Molstad, vice president Swan Johnson, secretary-treasurer H. A. Swanson, directors including the officers and Lewis Erickson of Princeton, A. E. Allen, A. L. Hoffman, C. E. Parker and G. S. Swanson, all of Brainerd. They are negotiating to turn the property, having received several flattering offers. Drilling in lots 1, 2 and 3 in section 8, township 46, range 29 has disclosed an ore body which ran from 34 per cent up. Near by the June Lake iron people held on their lease for years and then sunk a test pit to check up the drilling. The test pit revealed ore of a much richer nature than the drills and the Vermes-Cuyuna

people hope the experience of that company will be duplicated in their holdings.

The Hale-Bradley Exploration Co. has a drill in section 10, township 46, range 28. The Potts Exploration Co. recently put out a drill in a new location. Some interest is being shown in what is popularly termed the "poor farm" range of Aitkin county.

One drill of Spencer & Hunt operating a year in section 23, township 47, range 47. They have taken up 80 acres there. Near by the Ecogall company is drilling. Erick Hagstrom, of Virginia, interested in the Cuyuna Iron & Manganese Ore Co. and the Barrows-Mississippi Iron Co. was on the range this week.

Shipping continues from the Amour No. 2 mine and the Kennedy mine of the Rogers, Brown Ore Co. The company has one steam shovel which is kept busy on the stockpiles. At the Croft mine good progress is being made. Situated in Crosby, the mine will do much to further increase the prosperity of this mining town. The blacksmith shop, offices and ware house have been completed. Foundations are being laid for the power house and for the 120 foot concrete chimney, one resembling the stupa of the Adams mine at Ogleland. The Northern Pacific railway will use the Soo tracks to the mine and in return, it is said, will give the use of Northern Pacific tracks to the Soo to enter Ironton.

WEEK ON RANGE

Annual Report of Mining Inspector
Says Range Conditions are
Encouraging

WAR BOOSTS MANGANESE IRON

Developments in Europe are of Tremendous Importance to the Cuyuna Iron Range

The annual report of Mining Inspector August Swanson, of Brainerd, gives interesting information regarding the Cuyuna iron range. Inspector Swanson, for the period ending June 30, 1914, says that "in the face of the general spirit of pessimism that has gone broadcast on all sides about the mining conditions in Crow Wing county have been as a whole rather encouraging and the confidence of our people of the community in our infant industry has not been shaken."

Three properties have ceased operation. They, however, contain ore in plenty and of a high grade. Three other properties have opened up and are at an advanced stage of development. Explorations throughout the county are revealing enormous quantities of high grade ore on both the north and south ranges. As to safety, the conditions at the mines are well nigh ideal. The officials are courteous and willing to cooperate in holding "Safety First" as the primary idea in mine operation. Ample fire protection and means of exits have been provided.

In the older properties comfort and sanitation are well provided. There are comfortable change houses, in some cases fire proof, with hot and cold water, steam heat, individual wash basins, shower baths and sanitary steel, mouse-proof lockers.

The exploration companies operating on the Cuyuna range for the year included the Longyear Exploration company, Cole & McDonald, George H. St. Claire, Hale & Bradley Exploration Co., C. C. Adams Exploration Co., C. G. Fredrickson Exploration & Diamond Drilling Co., the Heimer Exploration Co., Osterberg & Johnson, the Duluth Diamond Drilling Co., the Potts Exploration Co. These companies employed about 95 men. They reported three accidents.

In the year ending June 30, 1914, there were operated 11 mines on the range in Crow Wing county. Five mines were not operating. The number inspections made by the mine inspector were 108. The average number of men employed on the surface in stripping and exploration was 535. Underground were employed 519, making a total of 1054. The ore shipped from underground amounted to 573,380 tons. Shipped from the open pits was 101,136 tons, making a total tonnage of 674,516 tons.

The stripping operations handled 2,462,666 cubic yards of material. But one fatal accident was recorded on the range. The total ore shipped December 31, 1913 was 1,193,376 tons.

In a statement made by Charles C. Jones, of Duluth, manager of the Brainerd-Cuyuna Mining company, having mineral lands within the city limits of Brainerd, the company has engaged the services of D. C. Peacock of Brainerd to sink a drop shaft upon their property. Mr. Peacock, says Mr. Jones, has just successfully sunk a shaft at the Wilcox mine of the same design as the one to be used at the Brainerd-Cuyuna mine where similar conditions as to water and quicksand exist. Mr. Peacock estimates that the drop shaft can be put into ledge within ninety days. At the last meeting of the directors held a Brainerd, John O. Martin resigned and in his place O. J. Vorous of Bayfield, Wis., was elected. Mr.

Vorous stands high in Bayfield and a good deal of the stock of the company is held in that vicinity.

At Barrows a drill has been placed on the property of the Barrows-Mississippi Iron Co. near the town on lands which adjoin Barrows to the north and west. This company owns the fee to nearly 400 acres of land. The drill is working in the northeast quarter of section 9 right north of the town of Barrows. With all these things happening around Barrows it should make things boom. There is also considerable road work being done, especially on the state road which runs through the town of Barrows.

Shipping continues from the Armour No. 2 mine and the Kennedy mine of the Rogers, Brown Ore Co.

The company has one steam shovel which is kept busy on the stockpiles.

At the Croft mine good progress is being made. Situated in Crosby, the mine will do much to further increase

the prosperity of this mining town.

The blacksmith shop, offices and ware house have been completed.

Foundations are being laid for the power house and for the 120 foot concrete chimney, one resembling the stupa of the Adams mine at Ogleland. The Northern Pacific railway will use the Soo tracks to the mine and in return, it is said, will give the use of Northern Pacific tracks to the Soo to enter Iron.

A new country in the eyes of investors and explorers is situated at the extreme north end of Crow Wing county. W. A. Rouchard, of Minneapolis, has had three drills at work near Emily for many months. H. J. Kruse, of Crosby, has two drills exploring near Little Pine.

The Cuyuna-Mille Lacs and Cuyuna-Duluth mines are shipping steadily.

The Adams mine at Ogleland is stockpiling. The Iron Mountain mine, says B. F. Forrestal of Duluth, one of its directors, is expected to start mining within two weeks when the eastern parties, who have paid a large cash advance royalty of \$50,000, are to begin operations.

A meeting of the stockholders and the annual election of officers will be held in Duluth on August 10.

The Wilcox mine at Woodrow, having its shaft anchored in solid ledge, is doing further sinking. At 200 feet depth drifting will be started.

The county commissioners August meeting was largely attended by mining interests who in many cases objected strenuously to having their valuations tilted, especially in the cases of unmined, quiet properties.

Reductions were ordered by the board in a number of cases.

There is now but little doubt that the almost universal war atmosphere in Europe will result in a stiffening of ore prices. The United States witnessed a great period of prosperity following the Spanish-American war. This war was but a local disturbance compared with the upheaval in Europe. America, under the strict neutrality proclamation of President Woodrow Wilson, will prove the granary and store house of the world. Iron, as a trade barometer, should be the first to feel the effect of a rising market.

The Vermes-Cuyuna Mining & Development Co. elected officers as follows: President Jens Molstad, vice president Swan Johnson, secretary-treasurer H. A. Swanson, directors including the officers and Lewis Erickson of Princeton, A. E. Allen, A. L. Hoffman, C. E. Parker and G. S. Swanson, all of Brainerd. They are negotiating to turn the property, having received several flattering offers. Drilling in lots 1, 2 and 3 in section 8, township 46, range 29 has disclosed an ore body which ran from 34 per cent up. Near by the June Lake iron people held on their lease for years and then sunk a test pit to check up the drilling. The test pit revealed ore of a much richer nature than the drills and the Vermes-Cuy-

una stand high in Bayfield and a good deal of the stock of the company is held in that vicinity.

The cutting off of imports from England, Germany and Belgium removes for an indefinite period all danger of competition under the present low tariff law. As to exports, some manufacturers of machinery and iron and steel products will feel keenly the loss of European business.

On the other hand, unusual opportunities for extension of business to foreign countries not involved in the war are presented. South America offers an extremely attractive field.

Unfortunately the humiliating condition of not having American ships in anything like adequate number to carry American products abroad now confronts the nation. President Farrell and other leading iron and steel manufacturers will take a prominent part in the efforts which are to be made to establish as quickly as possible an American merchant marine.

All quotations on ferro-manganese have been withdrawn and it is almost impossible to buy this product. (Ferro-manganese, by the way, is one of the products the American Manganese Manufacturing Co. will make from Cuyuna-Mille Lacs ore and the Cuyuna range manganese ores will command a high price accordingly.

The action of the Steel Corporation in withdrawing all quotations and quoting \$1 per ton higher on finished steel products, on application, is likely to be followed by independents and a general advance of prices is probable.

PEQUOT SCHOOL
COST \$19,694

Splendid School Building Measuring 75 by 50 Feet is Nearing Completion

HAS INDIVIDUAL WATER SUPPLY
Complete Industrial Depts., Domestic Science, Agricultural, Manual Training, Etc.

Pequot's new school erected by the consolidated district at Pequot is rapidly nearing completion. It is the finest building of its kind in Crow Wing county.

It measures 75 by 50 feet in size, two stories and basement and has six rooms with complete industrial departments including domestic science, agricultural, manual training, etc. It is equipped with an individual water supply and fire protection system, plumbing and sewerage, steam heat and mechanical ventilation.

The second floor is arranged to afford a large social center or assembly room by a rolling partition between the high school room and the adjoining rooms. The building is equipped with all modern ideas of ideal school house construction and is strictly according to the requirements of the Minnesota Department of Education.

The building cost complete over \$19,000 and the school district will receive a state aid of \$1,500 upon the building and about \$5,000 a year for maintenance when the departments are taught in full.

E. F. Broomhall, of Duluth, who designed the building, is noted for his artistic school buildings and it is

Whereas; Since capitalists of Europe have been unable to agree upon the national and international spheres in which to extend the operations of the capitalistic exploitations of the means of production and distribution of commodities, and therefore having declared war involving the nations of Europe, and,

They are here
You should see them

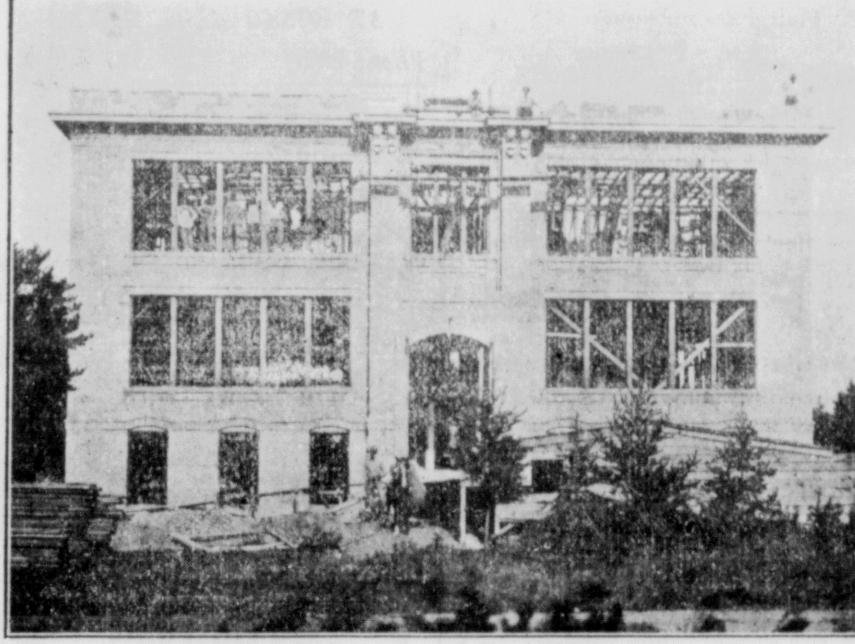

Every woman will be interested in seeing the new basque dresses and waists. We received some this morning and they are now displayed in our windows. You should see them—and—there are other excellent new styles which you will be pleased to see.

More \$1.50 silk waists at 98c

We received another shipment of \$1.50 silk waists which have caused such a furore at our special price 98c. They are displayed on the cases just inside the door.

"MICHAEL'S"

Protest Against War

\$19,694 Pequot School Nearing Completion

said he believed this one represents the greatest value for the money of any school house he ever designed.

The general contractor's name is Wm. Mason, of Palisade, Minn., who is one of the large contractors of northern Minnesota and who has several other contracts in view including a \$40,000 school at Barnesville. The actual cost of the building was \$19,694 and Mr. Mason states that favorable building conditions at Pequot allowed him to make such a low bid.

Shaft agreements covering property in section 13, township 45, range 30 to be mined by the Canadian-Cuyuna Ore Co. have been filed at the register of deeds office. There are four tracts of land and they may be operated as one mine and stockpiling may be done on one or more of the tracts.

Developments in Europe have come so rapidly, says the Iron Trade Review of Cleveland, Ohio, and are of such tremendous importance to the whole world that it is difficult to estimate the effect, present and future, on the manufacture of iron and steel in the United States, but there is a very strong feeling that ultimately the results will be beneficial to this country.

The cutting off of imports from England, Germany and Belgium removes for an indefinite period all danger of competition under the present low tariff law. As to exports, some manufacturers of machinery and iron and steel products will feel keenly the loss of European business.

On the other hand, unusual opportunities for extension of business to foreign countries not involved in the war are presented. South America offers an extremely attractive field.

Unfortunately the humiliating condition of not having American ships in anything like adequate number to carry American products abroad now confronts the nation. President Farrell and other leading iron and steel manufacturers will take a prominent part in the efforts which are to be made to establish as quickly as possible an American merchant marine.

All quotations on ferro-manganese have been withdrawn and it is almost impossible to buy this product. (Ferro-manganese, by the way, is one of the products the American Manganese Manufacturing Co. will make from Cuyuna-Mille Lacs ore and the Cuyuna range manganese ores will command a high price accordingly.

IRONTON TO PLAY BRAINERD

Range Town Comes out with a Side Bet That They Win Over the Locals

WANTED A GAME ALL SEASON

A. H. Proctor, of Ironton, Claims the Championship of Range for Ironton

Along with the war in Europe the Cuyuna range has a war in its sport world, the Ironton team claiming to be the champions of the Cuyuna range, regardless of the fact that Brainerd sits in the center of the aforesaid range and that Brainerd has a team which has swept everything off the boards and sustained but one defeat this year.

Sunday's game, played at the Koering grounds at 3 o'clock in the afternoon will be for blood and a side bet of \$200.

This will be some game. Ironton, says Manager D. A. Peterson, has asked for a game with Brainerd almost every Sunday. Brainerd told them that they were not fast enough, so Ironton came back at Brainerd with the side bet of \$200, which the locals have accepted.

Now if you want to see a baseball game, get out and come down Sunday to the ball park. Brainerd says nothing, it will play baseball.

Ironton will send down a large delegation on the Merry Widow and the flyers to see the game and many cars of the range will turn out. Crosby is coming to see Ironton get kicked. So are Cuyuna and Attkin, Oreland and Woodrow.

The umpires will be provided with armored suits. Should their uniforms pass unheeded, it may be necessary to call out a moratorium to bridge the difficulty. The umpires are pledged to preserve strict neutrality and will fight if necessary to do so. The war area around the third base and first base lines has been clearly defined and the crowd will be kept back by efficient police.

The laying of \$5 gold pieces on the home plate in these days will not be encouraged. The Ironton fans will yell themselves blue in the face before they submit to defeat.

BLUES LOSE TO BRAINERD

Poor Fielding Principal Cause of Defeat Says the Little Falls Transcript

In the Little Falls Transcript report of the last Sunday game the paper states: "Dominick twirled for the locals and had a number of hits chuncked against him, but most of them, according to those who saw the game, were due to slowness in the infield.

Carlyle, who was secured to play short stop, failed to put in an appearance and Lournier was put in the short field. Players who are hired by Little Falls have a faculty for failing to show up. The lineup was somewhat mixed up as a result of Carlyle's failure.

The team is to be shaken up considerably before the next game and two new infielders and at least one outfielder will be secured. The infielders will be a second baseman and a shortstop and Lournier will be switched to the outfield.

Strengthens Weak and Tired Women

"I was under a great strain nursing a relative through three months' sickness," writes Mrs. J. C. Van De Sande, of Kirkland, Ill., and Electric Bitters kept me from breaking down. I will never be without it." Do you feel tired and worn out? No appetite and food won't digest? It isn't the spring weather. You need Electric Bitters. Start a month's treatment today; nothing better for stomach, liver and kidneys. The great spring tonic. Relief or money back. 50c and \$1.00, at your druggist. H. P. Dunn, druggist.—Advt.

DONALDSON MAY PITCH FOR IROTON

Noted All Nations Pitcher Reported to have Been Secured by Ironton for Sunday Game

VICTOR ON MOUND FOR LOCALS

Gaven to Catch, Balance of Lineup Same as Usual with the Brainerd Nine

A scout hovering over Ironton has just reported in Brainerd that the Ironton team has secured Donaldson, the noted pitcher of the All Nations, to do the slab work for Ironton tomorrow in their game with Brainerd.

Manager D. A. Peterson surveys the situation with calmness. "We are prepared for the invasion of Ironton," says D. A. "We have the team which will beat the everlasting daylights out of them."

Victor and Gaven will be the Brainerd battery and the rest of the lineup will be the same as usual. Over \$400 has already been placed on Brainerd.

Facts in Nature

FOR centuries it has been known that Nature's most valuable health giving agents for the cure of disease are found in our American forests. Over forty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hospital and Surgical Institute at Buffalo, N.Y., used the powdered extracts as well as the liquid extracts of native medicinal plants, such as Bloodroot and Queen's root, diseases. This prescription as put up in liquid form was called

DR. PIERCE'S

Golden Medical Discovery

and has enjoyed a large sale for all these years in every drug store in the land. You can now obtain the powdered extract in sugar-coated tablet form of our medicine dealer, or send 50c in one-cent postage stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N.Y., and tablets will be mailed, postage prepaid.

The "Golden Medical Discovery" makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system. Skin affections, blisters, boils, pimples and eruptions—result of bad blood—are eradicated by this alternative extract—as thousands have testified.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, clothbound

R. E. QUINN

Does A Business Education Pay?

As a father or mother you have often asked yourself the question, Will it pay to give my boy or girl a business training--is it worth while--will it be of any real good to them?

Does it pay to take rough sawn oak lumber at \$40 a thousand feet and make it into cabinets that sell for \$1,000.00?

Does it pay to take a ton of iron worth, say \$8.00, and make it into watch springs worth tens of thousands of dollars? Does it pay?

A business training that makes your boy or girl think quicker and think right pays—it means promotion and success to your boy—indeed to your girl. IT IS YOUR BEST GIFT TO THEM.

How would you like to see your boy holding a job paying him from \$100 to \$200 a month, with splendid chances for advancement? Impossible, you say? Not by any means. A large number of young men, who took their course in this school, are doing it right now. Your boy can do the same.

The chances for young men in the business world were never better—business firms are paying higher wages—there are more positions to be had.

During the past twelve months I have had over 100 calls for office positions that I could not fill. Most of these places were for men who could earn from \$60 to \$100 a month as stenographers and bookkeepers, with splendid chances for advancement.

The young man with plenty of Grit—Gumption and Get There, who takes a good thorough business course in this school, need never worry about a job—good wages or promotion. Is your boy one of that kind—is he dead earnest—is he alive to his opportunities?

That is the kind of a boy I want here—he is the chap that will be a credit to you—to himself—to the school that trains him and places him in a position.

IRONTON TO PLAY BRAINERD

Range Town Comes out with a Side Bet That They Win Over the Locals

WANTED A GAME ALL SEASON

A. H. Proctor, of Ironton, Claims the Championship of Range for Ironton

Along with the war in Europe the Cuyuna range has a war in its sport world, the Ironton team claiming to be the champions of the Cuyuna range, regardless of the fact that Brainerd sits in the center of the aforesaid range and that Brainerd has a team which has swept everything off the boards and sustained but one defeat this year.

Sunday's game, played at the Koering grounds at 3 o'clock in the afternoon will be for blood and a side bet of \$200.

This will be some game. Ironton, says Manager D. A. Peterson, has asked for a game with Brainerd almost every Sunday. Brainerd told them that they were not fast enough, so Ironton came back at Brainerd with the side bet of \$200, which the locals have accepted.

Now if you want to see a baseball game, get out and come down Sunday to the ball park. Brainerd says nothing, it will play baseball.

Ironton will send down a large delegation on the Merry Widow and the dyer to see the game and many ears of the range will turn out. Crosby is coming to see Ironton get licked. So are Cuyuna and Atkin, Orton and Woodrow.

The umpires will be provided with armored suits. Should their ultimatum pass unheeded, it may be necessary to call out a moratorium to tried the difficulty. The umpires are pledged to preserve strict neutrality and will fight if necessary to do so. The war area around the third base and first base lines has been clearly defined and the crowd will be kept back by efficient police.

The laying of \$5 gold pieces on the home plate in these days will not be encouraged. The Ironton fans will yell themselves blue in the face before they submit to defeat.

American League.
Philadelphia 4, Cleveland 0.
Chicago 2, Washington 0.
New York 4, St. Louis 3.
Detroit 3, Boston 1.

BATTING AVERAGE BRAINERD TEAM

Below is given the batting average of the Brainerd team as compiled by James Templeton, official scorekeeper.

Team batting .378 113 .298
Individual batting average:

ab r h pctg.

Codik .44 14 .21 .477

Gavin .42 3 .16 .380

Benda .33 7 .12 .363

Templeton .44 11 .13 .295

Larson .38 8 .11 .289

Bush .42 9 .11 .261

Sheffle .42 7 .10 .238

Victor .31 4 .7 .225

Erickson .46 13 .10 .217

Alderman .16 1 .2 .125

Above averages cover every game played by Brainerd with the exception of the first two games.

BLUES LOSE TO BRAINERD

Poor Fielding Principal Cause of Defeat Says the Little Falls Transcript

In the Little Falls Transcript report of the last Sunday game the paper states: "Don Nick twirled for the locals and had a number of hits challenged against him, but most of them, according to those who saw the game were due to slowness in the infield."

Carlyle, who was secured to play short stop, failed to put in an appearance and Lourier was put in the short field. Players who are hired for failing to show up. The lineup was somewhat mixed up as a result of Carlyle's failure.

The team is to be shaken up considerably before the next game and two new infielders and at least one outfielder will be secured. The infielders will be a second baseman and a shortstop and Lourier will be switched to the outfield.

Strengthens Weak and Tired Women

"I was under a great strain nursing a relative through three months' sickness," writes Mrs. J. C. Van De Sande, of Kirkland, Ill., and Electric Bitters kept me from breaking down.

I will never be without it." Do you feel tired and worn out? No appetite and food won't digest? It isn't the spring weather. You need Electric Bitters. Start a month's treatment today; nothing better for stomach, liver and kidneys. The great spring tonic. Relief or money back. 50¢ and \$1.00, at your druggist. H. P. Dunn, druggist.—Advt.

DONALDSON MAY PITCH FOR IRONTON

Noted All Nations Pitcher Reported to have Been Secured by Ironton for Sunday Game

VICTOR ON MOUND FOR LOCALS

Gaven to Catch, Balance of Lineup Same as Usual with the Brainerd Nine

A scout hovering over Ironton has just reported in Brainerd that the Ironton team has secured Donaldson, the noted pitcher of the All Nations, to do the slab work for Ironton tomorrow in their game with Brainerd.

Manager D. A. Peterson surveys the situation with calmness. "We are prepared for the invasion of Ironton," says D. A. "We have the team which will beat the everlasting daylights out of them."

Victor and Gaven will be the Brainerd battery and the rest of the lineup will be the same as usual. Over \$400 has already been placed on Brainerd.
